## Christmas break up

**Melbourne Bowling Club Christmas party**  
will be at the club after the last round of Pennant on  
**Saturday 16 December.**

Keep that evening free to celebrate with fellow members the success of the first 10 rounds of pennant. More details will be published shortly.

**Put it in your diary NOW!!!**

### Around the club

**Janine Rischin** has accepted the invitation to join the board to fill the vacancy created by the untimely death of Paul Gamble. The board welcomes Janine and the contribution that she will be able to bring to the club.

-----

The board has renamed the January running of the two bowls triples tournament the **Ron Cross Two Bowl Triple tournament**. This tournament will be open to all comers. See details of the tournament elsewhere in the newsletter.

-----

The board is currently investigating green renewal of the green in front of the club house. It is intended to change to turf variety. This means that the actual work on renewal would start in mid December 2018 as the grass needs

the warmer weather to grow and get established. This means we will have to look at moving some home games to other clubs after Christmas. We might be able to front end home games in the first half of the season. It will also have a major impact on tournaments we run in the first half of 2019.

- - - -

**Byron Coonerty** with **Scott Mortimer** ran a coaching session a couple of Thursdays ago which proved very successful. It drew comments from **PCW** that it was very professionally run and that the handouts provided were excellent. **Jack Lucas, Jan, Darcy Seth, Viola** and **Kate** made up the group who took advantage of the bowls information on offer.

**Byron** has put a number of copies of the handouts on measuring and working with and in a team, on the bench at the notice boards.

**Byron** is more than happy to spend time (half hour session) one on one on a range of topics such as measuring, reading of the head, bowls protocol. Just approach him to arrange a time. Another group session might be in offing in the new year if we can gauge sufficient interest.
